

## I N H A B I T R SUCCESS STORY

Pioneering Al-powered furnishing platform for budget and luxury commercial real-estate segments

Offering rental solutions since 2016 with headquarters in the heart of Silicon Valley

Offers a diverse array of furniture, fixtures and equipment (FF&E) curated by international designers and suppliers

Provides insights about layout specific designs, accents and furnishing arrangements

Real-time insights are powered by cutting-edge sensors and Al-models trained for FF&E supply-chain

SS TO THE PROPERTY OF THE PROP

Disrupt the furniture-rental industry with an insightful platform, powered by cutting-edge sensor and AI technologies, offering high-quality commercial-grade furniture solutions tailored to each customer's needs with unparalleled flexibility, speed and cost efficiency.

## **KEY BUSINESS CHALLENGES**

Lack of timely order fulfilment & time wastage

Lack of visibility in accurately knowing chosen furniture sets sent to a specific location for a specific customer

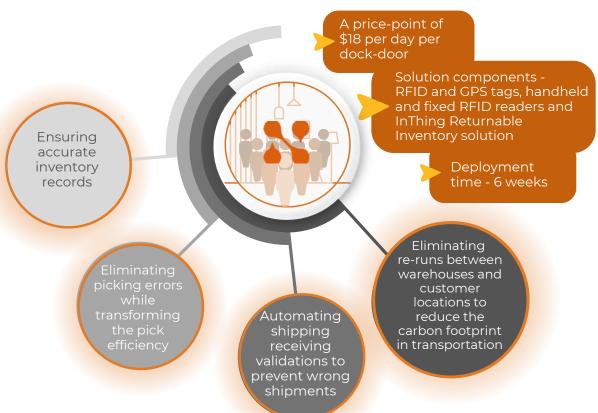

Audit and reconciliation of inbound furniture items was labor intensive and incomprehensive

InHabitr has struggled with inefficient use of time, and human errors in locating, inventorying, picking, packaging, shipping, auditing & receiving operations in their warehouses thereby increasing the transit time of each item, further impeded by lack of visibility while customers configure their furniture solutions.

## INTHING SOLUTION

By leveraging InThing's visibility platform, INHABITR has achieved significant operational efficiencies, including:
